

Comments in Response to Localism Notice of proposed rulemaking docket  
#04-233

I am concerned about the proposal of having Christian radio stations being advised by a board that may not share our Christian values. Please keep K-LOVE radio on the air as we know it today. We really need this radio station that has a powerful and uplifting message. Our world is in such chaos that this station is like a lifeline.

The message of love and compassion is truly needed in today's society. K-LOVE is sending out a message of hope to all who hear.

Please help K-LOVE continue just as it is today.
